

Archangel Gabriel

Is known as bringer or messenger – primarily associated with compassion.

Gabriel is the 8th Archangel. Gabriel with Michael rule over the etheric soul which give light to soul and body but astrologically he rules the moon (emotions of the soul) and the star sign Cancer.

Gabriel is the source for our inspiration and imagination. He helps us express our creativity as he shines divine light and celebrates our individuality. Gabriel's energy is relentless as he guides humanity and points us in the right direction. At times we can feel like lost sheep but he is always there as a pillar of strength and encouragement. When we get stuck and don't know which way to turn he acts as a sign post for us and enables us move forward.

Archangel Gabriel also helps with new creative ideas. His energy is very strongly associated with creation, birth and maternity. He helps our confidence and enables us to move forward with love and awareness. He is extremely strong and helps us to confront our own barriers and reflect upon our limiting beliefs! He is gentle kind and re-assuring and can also be called upon to comfort and heal our pain.

I see Gabriel pointing his finger like a guiding star

who is giving us both direction and wisdom. Trust in Gabriel as he can bring balance, inspiration and wisdom to us by showing us a clear way forward. A bringer of positive messages Gabriel assures us that it is safe for us to be powerful. He also helps us understand our dreams and enhances intuition and clairvoyance as Gabriel rules those going beyond the astral plane.

He can be seen in the Tarot as blowing a trumpet on Judgement Day! Rays Silver and Deep Blue- Planet Neptune Crystal for confidence – Citrine Dream recall – Red Jasper placed under the pillow.

Affirmation to connect with the energy of Archangel Gabriel;

Angel of Love and Compassion I am an extension of Your Love,

I am willing and open, I feel gratitude for my many blessings,

Each day is a gift which enhances my life.
